

Miscellaneous Unrestricted Accounts

Budget Administration periodically reviews the budget type fund status of miscellaneous, unrestricted accounts (i.e., old ledger 3 accounts; those with balance segment 21). Those accounts that have salary activity of over \$50,000 and/or have any activity greater than \$100,000 may be changed to a budgeted account.

If determined to be now a budgeted account, the budget type fund code be changed from 97 (unbudgeted) to 98 (budgeted). The budget type fund code is on the Internal Reports 1 tab.
